

Log Jack & Roller #TMB-45

For technical questions and replacement parts, please contact technicians who have specialized knowledge.

Thank you very much for choosing our product!

Save the receipt, warranty and these instructions. It is important that you read the entire instruction sheet to become familiar with this product before you begin using it.

Before using this Metal Timber Jack, please read the following instructions carefully:

Assembly Instructions:

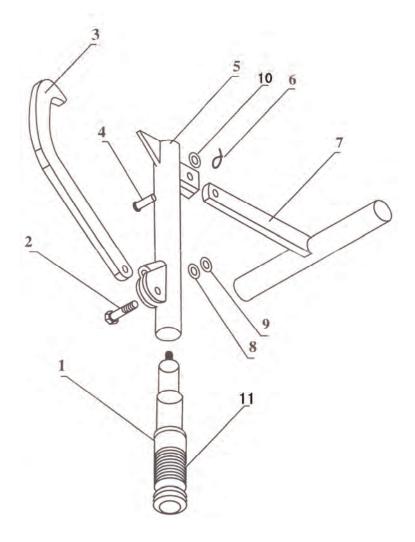

- **1.** Attach Iron Clip (#3) to the Tube Body (#5) by sliding it into the top slot and securing with bolt (#2), Washer (#8) and Nut (#9).
- **2.** Attach Holding Frame (#7) to the Tube Body (#5) by sliding into the bottom slot and securing it with the Bolt Latch (#4), Washer (#10) and the Split Pin (#6)
- **3.** Attach Steel handle (#1) to the Tube Body (#5) by threading the handle into the opening, as far as possible until it is firmly connected with the Tube Body (#5)

Warning and Precaution!

- 1. Be sure to tighten all nuts and bolts prior to first use, and check them periodically for loosening.
- 2. Ensure that the steel handle is threaded into the tube body firmly to avoid sliding off the handling. This could cause logs to slip and fall onto the user, causing injury.
